Alternate sources of energy.

Use of LED bulbs

Most of the CFL bulbs are replaced with LED bulbs. so all the CFL bulbs were replaced by tube lights and LED bulbs in college premises. Compared to the lifespan of your average incandescent bulb, the lifespan of a LED light is far superior. Another one of the leading LED lighting advantages is their energy-efficient operation. LEDs are very small (about the size of a spec of pepper). This means that they can be used in almost any application

Use of LED bulbs in Every Department

Exhaust Fan

Exhaust fans are a solution so that the exchange of clean air and dirty air in room can run well. Usually the rooms where the exhaust fan is installed are the bathroom or places with poor air circulation. In our college computer laboratory, staffrooms and other lab installed with exhaust fan.

Exhaust Fan are used in each department

Roof top rain water harvesting

Rain water harvesting reduces soil erosion and flood hazards by collecting rainwater and reducing the flow of storm water to prevent urban flooding. Most buildings that utilize rainwater harvesting systems have a built-in catchment area on top of the roof, which has a capacity of collecting large volumes of water in case of rainstorms. So our college also collects the rooftop rain water and taken in to underground water tank.

Waste Management

A) Solid waste management

Waste on the campus is divided into Biodegradable, recyclable and hazardous wastes, which get distinguished by different colored trash containers. Biodegradable waste is collected in the green-colored dustbin, recyclable in blue-colored and hazardous waste in Red colored containers. Green-colored containers are used to dump waste that can degrade on its own.

B) E- Waste management

In our college, E-waste management responsibility is given to every department. Awareness is done by electronic subject faculty members in every class in the college by telling about E-waste and its impact on environment. E-waste materials are collected by students in electronics laboratory. Collected E-waste from the college is to be handed over to Swaccha Vadgoansheri Group, Poornam Ecovision Foundation (PEF), Pune who accept these E-waste and dispose it through environment friendly way. The collected E-waste in the college is in small quantity.
